

Nasir Syntax Solution Limited is seeking a talented and motivated **Machine Learning Intern** to join our dynamic team. As a Machine Learning intern, you will have the opportunity to work on cutting-edge projects, collaborate with experienced professionals, and expand your skill set in machine learning.

Position: Machine Learning Intern

Vacancy: 2

Experience: Freshers (Those with research experience or academic projects on relative field will get preference)

Internship Period: 3 Months(Full time opportunity upon successful completion of intern period)

Salary: (8000-10000) BDT/per month

Type: On-site (9 AM - 5 PM)

Responsibilities:

- Assist in developing and implementing machine learning models and algorithms.
- Participate in data collection, preprocessing, and analysis tasks.
- Support the team in testing and validating machine learning models.
- Collaborate with cross-functional teams to solve business problems using machine learning techniques.
- Stay curious and proactive in exploring new technologies and methodologies in machine learning.

Requirements:

- Passionate about machine learning with a strong desire to learn and grow.
- Familiarity with programming languages such as Python and Machine Learning frameworks.
- Excellent communication and teamwork skills.

If you are a motivated and ambitious individual looking to kick-start your career in machine learning, we encourage you to apply for this internship opportunity.

Interested candidates are requested to fill up the following form within **August 5, 2026**.
